

Important things to remember to bring, when moving into boarding school

- There are small kitchenettes at the boarding school, which the students share. The kitchenettes are equipped with various remedies, but you have to bring regular service (a glass, a cup or more, plates and cutlery -preferably with name). Or buy it, after your arrival.
- We recommend that you bring a net cable to your room. There is wireless network throughout the boarding school, but during the teaching hours (8 am to 4pm) there are special restrictions on the wireless network, so you cannot access various websites and social media during this period.
- Remember to bring duvet, pillow, bed linen, sheets (bed is 90x200cm) as well as towels.
- Remember to bring thumbtacks for the note boards in your room as well as hangers for the closet.
